

Declara por minha honra que este diagrama foi realizado apenas pelos elementos que constituem o grupo de projeto. *Yorlato Lompao Bóris* grupo 54

pr. app. main

Do Open File

<< final >> execute(): void

Do Save File

<< final >> execute(): void

Do Show Global Balance

<< final >> execute(): void

Do Open Menu Client

<< final >> execute(): void

Do Open Menu Lookups

<< final >> execute(): void

Do Open Menu Terminals

<< final >> execute(): void

pr. app. clients

Do Disable Client Notifications

<< final >> execute(): void

Do Enable Client Notifications

<< final >> execute(): void

Do Register Client

<< final >> execute(): void

Do Show All Clients

<< final >> execute(): void

Do Show Client Exports And Balts

<< final >> execute(): void

Do Show Client

<< final >> execute(): void

pr. app. terminals

Do Open Menu Terminal Console

<< final >> execute(): void

Do Register Terminal

<< final >> execute(): void

Do Show All Terminals

<< final >> execute(): void

pr. app. lookups

Do Show All Communications

<< final >> execute(): void

Do Show Clients Without Balts

<< final >> execute(): void

Do Show Clients With Balts

<< final >> execute(): void

Do Show Communications From Client

<< final >> execute(): void

Do Show Communications To Client

<< final >> execute(): void

Do Show Terminals With Positive Balance

<< final >> execute(): void

Do Show Unused Terminals

<< final >> execute(): void

pr. app. exceptions

Duplicate Client Key Exception

Duplicate Terminal Key Exception

File Open Failed Exception

Invalid Terminal Key Exception

Unknown Client Key Exception

Unknown Terminal Key Exception

<< bind >>

Receiver → Network

<< abstract >>

Command

<< abstract >> execute(): void

Process: Clone

<< bind >>

Receiver → NetworkManager

<< known >>

CommandException

Clone, Label, Manager and Import have been omitted since they are specific to the implementation and not relevant to the overall structure of the project.

pr. off. terminal
